

Airports 1500

This module presents forecasts and actuals separately for all major global airports.

Coverage:

- 1500 individual airports
- 141+ countries
- 970+ cities
- latest actuals updated daily
- a complete forecast update every month
- each airport forecast extends from next month to 2040
- summaries by city, country, region and globally
- total, domestic and international passengers

Subscription:

- 12 months with optional annual renewal and unlimited corporate users

The No. 1 Source

In Travel Retail, only Air4casts has been forecasting this long, and with this depth and scope. The Airports 1500 module presents a unique database of global airport actuals and forecasts; international, domestic and total. Updated daily as airports declare their figures, there is nothing to match our scientific approach to Travel Retail.

Actuals & Forecasts

Fast track the latest monthly actuals as they come in, and see a complete forecast update every month. Forecasts are available monthly, quarterly and annually 3 years ahead, and annually to 2040.

Risk Pricing

Get access to error ranges for any or all airports in the module. Vary confidence limits by airport and passenger type and know the potential downside exposure on each forecast.

The Full Profile

Forecasts for individual airports are also divided by data type, giving you separate forecasts for international, domestic and total passengers.
